

PRESS RELEASE

BHF-BANK represented at the E-world energy & water

Frankfurt, 12 January 2006. For the fourth time in succession, BHF-BANK will be participating in the trade fair “E-world energy & water”, which will be taking place in Essen between 14 and 16 February this year. At trade fair stand 3.526, the bank’s experts will inform interested visitors on the latest trends in the energy industry.

BHF-BANK will be represented by specialists from the Derivatives Sales, Custody & Derivatives Services and Economics departments to present the bank’s new clearing services on the Scandinavian energy exchange Nord Pool and its execution service on the Intercontinental Exchange to a broad field of experts from the energy and water industry. Furthermore, the bank plans to hold a joint workshop with the EEX on trading in CO₂ certificates.

“As the leading clearing bank on the EEX, we look forward to meeting the key players of the European energy industry at the fair,” said Tobias Krause, head of the Product Sales Team in Derivatives Services. “E-world has become the leading trade fair for the energy and water industry in recent years. It is an ideal platform for the latest market trends and for cultivating contacts,” added Sabine Lehmann-Rehmshagen, head of the Derivatives Sales Team.
